DETAILED ACTION

1. Applicant's amendments have been fully and carefully considered. Applicant's amendments overcome the 112, 2nd paragraph rejections and objections. The claims have been deemed allowable. Applicant's amendments to the drawings have been considered and entered.
2. Applicant's request for rejoinder has been considered and the request for rejoinder will not be granted. Rejoinder practice applies when claiming products and process of making and/or using the allowable product. In the instant case, the claims are directed to an apparatus or a device not a product per se. It is the position of the examiner that the process and the apparatus are distinct inventions and were properly restrictable, the restriction is maintained and applicant's request for rejoinder is denied.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Sylvester on September 26, 2007.

The application has been amended as follows:

In the abstract:

Delete the abstract in its entirety and insert

--An improved cyclone system for disengaging solid and gaseous particles in a fluid catalytic cracking apparatus, which results in reduced coke formation in the disengager vessel without favoring release of the disengaged catalyst into cyclones in subsequent stages. The system comprising legless cyclones fitted with external collector pipes outside of the cyclone which

optimize the purge of gases coming from the disengager vessel and reducing the time the hydrocarbons remain inside the disengaging vessel thus preventing over cracking and subsequent coke formation.--

In the Claims:

Cancel Claims 17-24 and 29 non-elected. Applicant reserves the right to file for a divisional application.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to N. Bhat whose telephone number is 571-272-1397. The examiner can normally be reached on Monday-Friday, 9:30AM-6:00PM.
